

National Centre for STEM Education

3rd March 2022

SCIENCE EDUCATION
RESEARCH AND DEVELOPMENT OFFICERS WANTED
CONTINUING PROFESSIONAL DEVELOPMENT OF SECONDARY SCIENCE TEACHERS

Are you an experienced science teacher or a masters student in science education/science with a passion for communicating science in interesting ways and in the professional development of science teachers?

If so, we would love to hear from you. We have a number of hourly-paid positions in science research & development in **EPI*STEM National Centre for STEM Education** at the University of Limerick [to a max of 7 hours per week].

We are working at the Centre to lead out an imaginative research and development project funded by the HEA Performance Fund with the intention of designing a number of relevant on-line CPD resources for science teachers, and a follow-up 2-day conference with science teachers in October 2022.

For more information: Please contact Helen Fitzgerald, Executive Administrator, EPI*STEM, National Centre for STEM Education, University of Limerick by email Helen.Fitzgerald@ul.ie and 061-234786. See our website on <http://www.epistem.ie> and join our Twitter feed: **@EPISTEM_UL**
