

Sketch the graphs of the derivative of each function below:

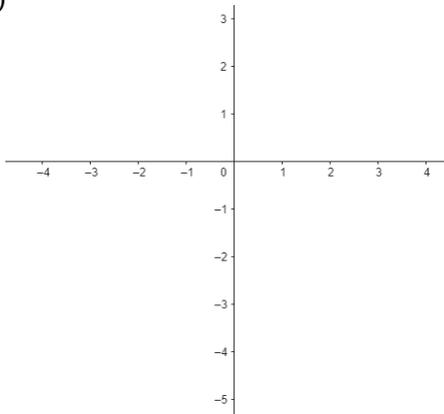

$f(x)$

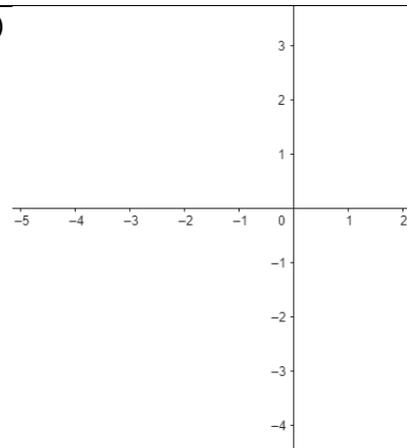

$g(x)$

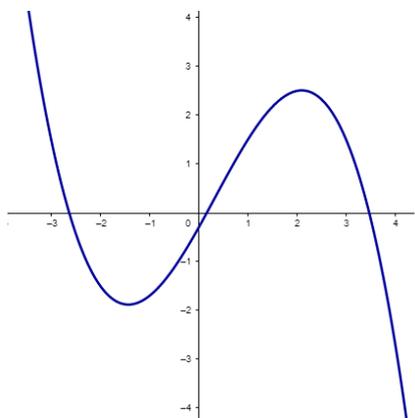

$f'(x)$

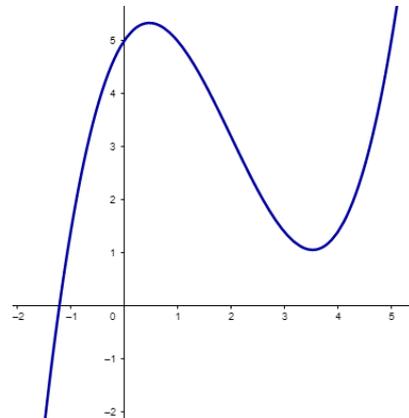

$g'(x)$

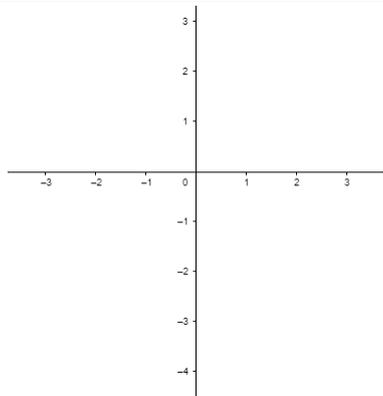

$h(x)$

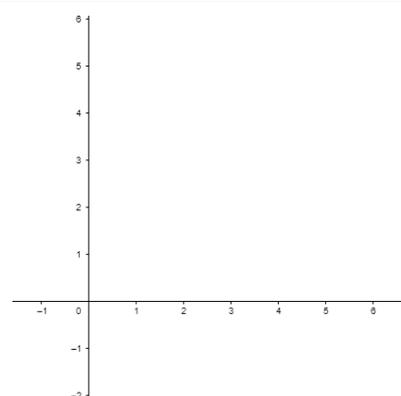

$p(x)$

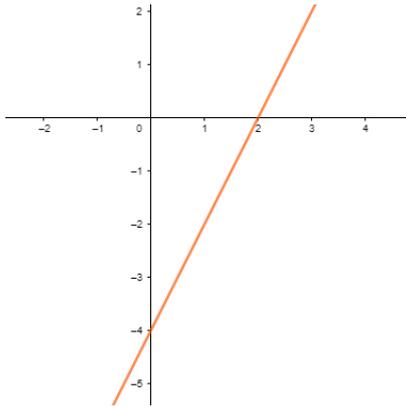

$h'(x)$

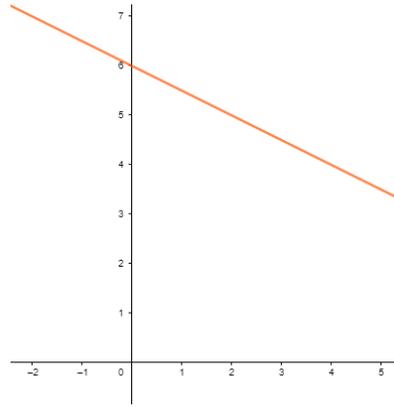

$p'(x)$

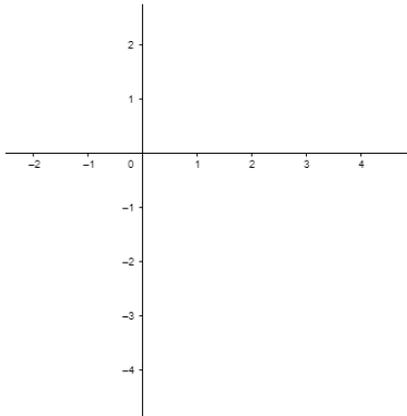

$d(x)$

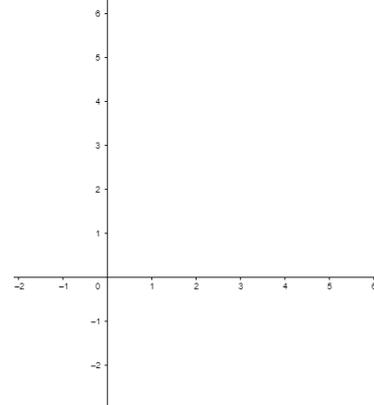

$m(x)$

$d'(x)$

$m'(x)$

Now it's your turn!

In pairs, sketch your own function and its derivative.

Function:

Derivative:
