

National Centre for STEM Education

SHOUT OUT TO ALL SCIENCE EDUCATION STUDENTS IN INITIAL TEACHER EDUCATION IN SCHOOL OF EDUCATION

COLLECT YOUR FREE COPY OF OUR NEW EPI•STEM HEA BOOKLET

SCIENCE TEACHER LEARNING FOR RELEASING IMAGINATION AND FOR SUSTAINABILITY

ECOLOGY - A STUDY OF THE RELATIONSHIP BETWEEN ORGANISMS AND THEIR ENVIRONMENT

This booklet is part of a series of on-line CPD resources specifically designed for science teachers as a result of a recent HEA funded research-led project in EPI•STEM.

WHAT WERE THE AIMS OF THE PROJECT? The research and development project aimed to provide resources for up-skilling science teachers in content knowledge, in subject matter and in pedagogical knowledge in ways that support the continuing professional learning of teachers. The topics were selected by science teachers, in a national survey and the research design team in EPI•STEM then set about developing the resource materials. Science teachers are invited to draw from the resources in whatever way they select, assisting them with the planning of interesting classes.

Science teachers are invited to adapt the resources to suit their contexts and curriculum guidance.

WHERE CAN I GET MY COPY?

Call to EPI•STEM, Room A1064 in Main Building:

Wednesdays, 11am to 5pm.

WHAT IS THE COST OF EACH BOOKLET?

The booklets are free of charge.
