

National Centre for STEM Education

New Vacancies in EPI-STEM The National Centre for STEM Education

Are you teaching Mathematics part-time? Are you a final year Math Ed student?

Are you interested in pursuing research in mathematics education?

Have you good communication, team-work and administration skills?

If yes, please talk to us?

Background information

EPI-STEM is a UL hosted research centre, with an international reach, located in the School of Education. The Centre is committed to a progressive research-led approach to the *Continuing Professional Development* [CPD] of all STEM teachers in Ireland.

Our *Professional Diploma in Mathematics for Teaching* (PDMT) programme is a national fully-funded programme for upskilling out-of-field mathematics teachers in content knowledge. We are a vibrant team, constantly seeking more imaginative ways of teaching mathematics to young people for understanding and in a rich variety of contexts.

Vacancies

We now have a number of vacancies coming on stream in mathematics education, that might interest you, especially if you are currently teaching mathematics part-time, seeking a career-break or in the final year of your mathematics education studies at undergraduate or postgraduate level.

Who to Contact?

Please contact Helen Fitzgerald,
Senior Executive Administrator at EPI-STEM
by email on Helen.Fitzgerald@ul.ie for more information.
